

Voyager 1 'Family Portrait' of the solar system taken 40AU from Earth

2nd Interplanetary CubeSat Workshop

Ithaca, New York, USA
28-29 May 2013

iCubeSat 2013, the second Interplanetary CubeSat Workshop, will address the opportunities, technical challenges, and practicalities of space exploration with CubeSats. The workshop will provide a unique environment for open practical collaboration between academic researchers, industry professionals, policy makers and students developing this new and rapidly growing field.

Talks on astrodynamics, attitude control and determination systems, citizen science, citizen space exploration, communications, landers, launch opportunities, open source approaches, outreach, payloads, policy, power systems, propulsion, reentry systems, ride-shares, science missions, software, standardization, structures, systems engineering and other related topics are all welcome.

The workshop will be held on or near the Cornell University campus in beautiful upstate New York.

Abstracts due 1st April 2013 via iCubeSat.org
